DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-6 in Paper No. 6 is acknowledged.
2. Claims 7-23 are withdrawn from consideration by the examiner as being drawn to inventions withdrawn without traverse. The restriction requirement is made FINAL.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation

Art Unit: 1751

under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lim et al., US 5,993,491. The reference discloses the use of 2-(2-hydroxyethylaminomethyl)-p-aminophenol as intermediates in hair dye compositions (col. 5, lines 46-47). This is a one-carbon homolog of a compound claimed by applicants. It would have been obvious at the time that the invention was made to prepare the aminoethyl homolog because as a one-carbon homolog of a hair dye intermediate, it would have been expected by the person of ordinary skill in the chemical arts to have similar properties to the disclosed compound.

Allowable Subject Matter

7. Claims 3-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. The following is a statement of reasons for the indication of allowable subject matter: The closest prior art of record is the reference relied upon above. This reference does not disclose or motivate the preparation of compounds as recited in these claims.

Art Unit: 1751

9. Any prior art made of record and not relied upon is of interest and is considered pertinent to applicant's disclosure.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (703) 305-5599.
